2nd BONUS – Save On Your Taxes

I hope you enjoyed our last bonuses: Go Pro – by Eric Worre. Send us an email reply and let me know what you found valuable with it.

Today's bonuses will help you to have more money in your bank account, even if you do not earn any money in your home business.

How is that possible? The government has 2 sets of Tax Laws – one for people with 1099 income and another for people with W-2 income (employees). And the tax advantages are in favor of the people with the 1099 income (like self-employed people, business owners and entrepreneurs).

Sandy Botkin, is the leading expert for decades on Tax Law and how to save big time on your taxes. If you pay less taxes legally, that means you keep more money in your bank account. This is done primarily by 'Business Expenses.'

Furthermore, I will share with you a FREE TOOL that will help you track your business expenses easily, categorize your expenses and print out a report for your tax preparer to help make your tax returns bullet-proof in any audit. For years we used to pay **\$100 every year** for a similar tool. Now you get it for **FREE!**
